

ARE YOU A VETERAN WHO WOULD LIKE TO LEARN MORE ABOUT TECHNOLOGY?

SeniorNet is a volunteer program of Family Service League. Its mission is to teach computer and technology skills to adults aged 50+.

SeniorNet offers a wide range of free support to our veterans:

- FREE enrollment in any of our classes, seminars or webinars.
- There is Help Desk guidance for issues with your computers and mobile devices, and advice on selecting the device for your needs.
- Refurbished computers or tablets.

We would be happy to speak with you and help you decide how we can best meet your needs.
